

Military Families

We are pleased to be a part of the Florida Chapter of The Aging Life Care Association® that recognizes & supports our United States military. The Evelyn McPherson Foundation has provided a grant to provide Aging Life Care management to:

- Active-duty US Military
- Retired US Military
- Active Guard Reservists
- National Guard members
- US Military family members

Do you have a concern about an aging parent or disabled relative? Are you a veteran and interested in an assessment? Do you know of an active-duty military person who is concerned about their loved one? Send them our way. We are eager to help.

Eligible military families can receive up to 4 hours of Care Management by an Aging Life Care Professional which includes a care planning assessment for your aging parent or disabled family member to identify problems and provide solutions.

Visit The Aging Life Care Association Florida Chapter page for more information, aginglifecare.org.
